BIOFIT SEATING FOR
HEALTHCARE &
LABORATORY
ENVIRONMENTS
FIGHTING
INFECTION –
THE BIOFIT
ADVANTAGE

PROTECTING THE CAREGIVER AND BEYOND

Now more than ever, easy and effective cleaning and disinfection of healthcare and laboratory environments, equipment and furnishings are critical. That's why BioFit developed a comprehensive collection of ergonomic seating specially designed with durable materials that stand up to more frequent and longer exposure to cleaners and disinfectants.

BioFit has over 275 seating models in our Quick Ship program available for next day or 2-day shipping, including ISO 4 to ISO 8 configurations as well as the series featured on page 5. Additionally, the stools shown on page 4 are ideal for emerging healthcare needs and available at reduced lead times of 5-10 business days.

BIOFIT STOOLS: THE SMART CHOICE FOR HEALTHCARE APPLICATIONS – NOW WITH REDUCED LEAD TIMES*

FIGHTING INFECTION
THE BIOFIT ADVANTAGE

REXFORD RX AND RX VACUUM FORMED SERIES STOOLS†

- Round seat with high-resilience molded foam cushioning and internal seat board bumperguard; seamless vinyl upholstery on vacuum formed model enables seat to maintain its shape and performance over time, maximizing comfort while protecting against bacterial and fluid infiltration. 1:10 bleach/water cleanable.
- Pneumatics are available to provide low, medium and high seat height ranges to accommodate many task requirements.
- Black powder-coated paint finish standard on metal parts.

[Get full details on Rexford models here.](#)

CEREX CX SERIES STOOLS

- Durable self-skinned urethane seat resists fluids, many chemicals and punctures.
- Fingertip-controlled pneumatic height activator ring enables adjustment from entire seat perimeter.
- Pneumatics are available to provide low, medium and high seat height ranges to accommodate many task requirements.

[Get full details on Cerex models here.](#)

ARAMIS 2A & 2A VACUUM FORMED SERIES STOOLS†

- Hands-free foot-activated pneumatic seat height adjustment.
- Round seat with high-resilience molded foam cushioning; seamless vinyl upholstery on vacuum formed model enables seat to maintain its shape and performance over time, maximizing comfort while protecting against bacterial and fluid infiltration. 1:10 bleach/water cleanable.
- Pneumatics are available to provide low and medium seat height ranges to accommodate many task requirements.

[Get full details on Aramis models here.](#)
