The BioFit Advantage

Static control facilities present unique challenges when it comes to seating, including the ergonomic and comfort expectations of users, and the ability to comply with specialized requirements. The BioFit MicroTech Collection offers over 15 ESD models for communications, aerospace, defense, electronics, and computer industries and more. We use components tested and proven to ensure continuity throughout the chair, and many static-control models are available in our 2-day Quick-Ship Seating Program.

1 – Products featuring full adjustability and ergonomic support to optimize user comfort

2 – Seat-height ranges of up to 33.5” with no loss of adjustability or stability

3 – ESD and clean room/ESD critical performance packages rated from ISO 8 to ISO 3

4 – Models engineered for 24/7/365 durability; nearly all backed by a 13-year warranty

MVMT™ Line Pro Series Seating: ESD-configured model shown with tall backrest, medium seat height range, wide aluminum base, adjustable arms and footring, ESD application resistance casters, chrome finish on metal parts, drag chain and black conductive vinyl upholstery. BioFit Customer Advantage

BioFit's focus every day is to improve the workplace experience through ergonomic performance, comfort, style and reliability.

Leading the Industry in Technical Seating—Your ergonomics seating solutions source: Identified by a majority of the top 50 experts in the ESD and clean room industry as the source for technically superior seating solutions.

Product Advantages—Lowers cost of ownership: Nearly all BioFit products are warranted to the original purchaser against mechanical or structural failure due to defective material or workmanship for 13 years of normal, multi-shift use. Pneumatic cylinders are covered for the functional lifetime of the chair or stool.

Supply Chain—Higher customer satisfaction: No-surprise delivered prices – ground freight to lower 48 states included on all orders over \$3,500 list pricing.

Value-added Services—Assure you get the seating solution you need: Due to the modular construction of our products, users can use the Build Your Own Chair seating configurator to create, request a quote and order seating for their unique requirements, right from their smartphone. Plus, BioFit offers a 30-day “try before you buy” sample program, allowing customers to field-test seating at their location.

More Than Seating—BioFit Tables & Carts: BioFit manufactures a full line of mobile folding tables, cafeteria tables and multipurpose carts.

Shop the leader, shop biofit.com today!

Award-winning seating solutions for education, technology, industrial, laboratory, healthcare, office and custom applications.
